Modern Environmental Management and Technologies

Academic Conference

organized in the framework of the Asia-Link Program of the European Commission
Project Nr. 147-063
Euro-Asia Partnership for Development Human Resource Capacity of Engineering
Education in Afghanistan

Main Partners

Slovak University of Technology in Bratislava, Slovakia

Kabul Polytechnic University, Afghanistan

Vienna University of Technology, Austria

Asian Institute of Technology, Thailand

Herat University, Afghanistan

In cooperation with:

Ministry of Higher Education of Afghanistan

Afghanistan's National Environmental Protection Agency

**Conference will be held at Kabul Polytechnic University
in Afghanistan between April 16 and 19, 2011**

SCOPE OF THE CONFERENCE

Environmental pollution in Afghanistan is one of the most important tasks that need immediate solution. Higher education and research in environmental fields create one of the basic pillars of environmental protection.

The aim of the conference is to bring together academicians, researchers, people from industry, lawgivers and politics from Afghanistan and other countries working in the field of environmental protection to exchange experience and information. The conference aims to support implementation of environmental education and enrichment of the Afghan universities' curricula with modern components and trends in this field.

IMPORTANT INFORMATION DATES AND DEADLINES

Date of the conference	April 16-19, 2011
Registration of contributions (lectures)	January 15, 2011
Submission of abstracts and full texts	February 28, 2011
Registration of participants without contributions	March 15, 2011
Conference scientific program distribution	March 31, 2011

Academicians, university teachers, researchers, graduates as well as business representatives, lawgivers, and other interested people in environmental problems are encouraged to apply and register their lectures. Potential lecturers should fill the application form available online at www.afgasialink.eu and submit until January 15, 2011. Other conference participants should register before March 15, 2011.

Conference registration fee of all participants is covered by the Asia-Link Program of the European Commission, Project Nr. 147-063, Euro-Asia Partnership for Development Human Resource Capacity of Engineering Education. The conference organizers cover also expenses for accommodation and food of invited lecturers from abroad. The travel, accommodation and per-diem costs of selected participants from Afghan universities outside the Kabul will be covered by the Ministry of higher education of Afghanistan. Please note that the registration of all participants is preliminary the cost of expenses will be covered only based on official invitation sent by conference organizers.

ORGANIZING COMMITTEE

Doc. Ing. Juma Haydary, PhD, Slovak University of Technology in Bratislava, Slovakia
Dr. Zuzana Letkova, Slovak University of Technology in Bratislava, Slovakia
Doc. Ing. Pavel Timar, Slovak University of Technology in Bratislava, Slovakia
Ing. Barbora Dudášová, Slovak University of Technology in Bratislava, Slovakia
Dipl.-Ing. Peter Gabko, Vienna University of Technology, Austria
Prof. Shah mohammad Besmel, Kabul Polytechnic University, Afghanistan
Prof. Dr. Abdul Qayuom Karimzada, Kabul Polytechnic University, Afghanistan
Prof. Amanullah Faqiri, Kabul Polytechnic University, Afghanistan
Dipl. Eng. Azizurahman Azimi, Herat University, Afghanistan

SCIENTIFIC COMMITTEE

- Prof. Mohmmad Osman Babori, Deputy Minister of Higher Education of Afghanistan
- Eng. Najibullah Yamin, Afghanistan's National Environmental Protection Agency
- Prof. Ing. Vladimír Bálež, DrSc., Slovak University of Technology in Bratislava, Slovakia
- Prof. Ing. Jozef Markoš, DrSc., Slovak University of Technology in Bratislava, Slovakia
- Prof. Ing. Miloš Drtil, PhD., Slovak University of Technology in Bratislava, Slovakia
- Doc. Ing. Juma Haydary, PhD, Slovak University of Technology in Bratislava, Slovakia
- Univ. Prof. Dr. Hans Kaiser, Vienna University of Technology, Austria
- Prof. Dr. Ezatullah Amed, Kabul Polytechnic University, Afghanistan
- Prof. Dr. Abdul Qayuom Karimzada, Kabul Polytechnic University, Afghanistan
- Prof. Mir Gholam Osman Bariz Hossaini, Herat University, Afghanistan
- Prof. Dr. Oleg Shipin, Asian Institute of Technology, Thailand

AFGAsiaLink.EU

Main Topics of the Conference

- **Environmental technologies providing concrete solutions for protection of environment in Afghanistan conditions, waste management, reduction of emissions, waste water treatment, land protection.**
- **Current situation of environment in Afghanistan, Environmental policy and country strategy for environmental protection**
- **Sources of environmental pollutions, methods of their monitoring and reduction**
- **Environmental education at European and American Universities (teaching methods, modern technical tools used in the teaching process, standard American and European University curricula and their comparison with Afghan curricula)**
- **Open Discussion Forum – possibilities of national and international cooperation in the field of environmental protection, education and research. Discussion and approving of conference resolution.**
Seminars for students and other interested people – transfer of knowledge and information, modern technologies in environmental engineering
