# Energy Resources, Distribution and Saving

## Academic Conference

organized in the framework of the Asia-Link Program of the European Commission  
Project Nr. 147-063

Euro-Asia Partnership for Development Human Resource Capacity of Engineering  
Education in Afghanistan

In Cooperation with the Ministry of Higher Education of Afghanistan  
Strengthening Higher Education Program (SHEP)

### Main Partners

Slovak University of Technology in Bratislava, Slovakia

Herat University, Afghanistan

Vienna University of Technology, Austria

Asian Institute of Technology, Thailand

Kabul Polytechnic University, Afghanistan

**Conference will be held at Herat University  
in Afghanistan between April 18 and 21, 2010**

## SCOPE OF THE CONFERENCE

Higher engineering education and research are one of the basic pillars in building the human and social capital needed for economic development of Afghanistan. At the same time, they serve as important tools for promoting peace, stability, and social cohesion. Development of Energy Engineering is one of the most important prerequisites for the economic development and energy security of a country.

The aim of the conference is to bring together academicians, researchers and people from industry from Afghanistan and other countries, working in the field of Energy Engineering to exchange experience, best practices and information. The conference aims to support implementation of Energy Engineering education and to enrich the curricula of the Afghan universities with modern components and trends in this field.

# AFGAsiaLink.EU

## Main Topics of the Conference

- Energy resources, conventional and renewable energy resources, Afghanistan conditions
- Energy policy and Energy security of a country
- Energy distribution, Efficiency increasing, Energy saving
- Education in Energy Engineering at European and American Universities (teaching methods, modern technical tools used in the teaching process, standard American and European University curricula and their comparison with Afghan curricula)
- Open Discussion Forum – possibilities of international cooperation of Afghan universities with European and other universities, modernizing of the teaching curricula at Afghan universities, etc.
- Seminars for students and other interested people – transfer of knowledge and information, modern technologies in Energy Engineering.

## IMPORTANT INFORMATION DATES AND DEADLINES

|   |                          |
|---|--------------------------|
| <b>Date of the conference</b>                             | <b>April 18-21, 2010</b> |
| <b>Registration of contributions (lectures)</b>           | <b>January 15, 2010</b>  |
| <b>Submission of abstracts and full texts</b>             | <b>February 28, 2010</b> |
| <b>Registration of participants without contributions</b> | <b>February 28, 2010</b> |
| <b>Conference scientific program distribution</b>         | <b>March 31, 2010</b>    |

Academicians, university teachers, researchers, graduates as well as business representatives from the field of Energy Engineering are encouraged to apply and register their lectures. Potential lecturers should fill the attached application form and send it latest by January 15, 2010 to the conference organizing committee via e-mail or fax, or [using online registration at www.afgasiaLink.eu](http://www.afgasiaLink.eu). Other conference participants should register before February 28, 2010.

Conference registration fee of all participants is covered by the Asia-Link Program of the European Commission, Project Nr. 147-063, Euro-Asia Partnership for Development Human Resource Capacity of Engineering Education. The project covers also expenses for accommodation and food of invited lecturers from abroad. The travel, accommodation and per-diem costs of active participants from Afghan universities outside the Herat University will be covered by the SHEP project (ministry of higher education of Afghanistan). **Please note that the registration of all participants is mandatory. The organizers could claim for the cost incurred, if the participant is registered and does not participate.**

## ORGANIZING and SCIENTIFIC COMMITTEE

### **Slovak University of Technology in Bratislava, Slovakia**

Prof. Ing. Jozef Markoš, DrSc.  
Doc. Ing. Ľudovít Jelemenský, PhD.  
Ing. Juma Haydary, PhD.  
Dr. Ing. Zuzana Letková

### **Herat University Afghanistan**

Prof. M. G. Osman Bariz Hossaini  
Eng. Azizurahman Azimi

### **Vienna University of Technology Austria**

Univ. Prof. Dr. Hans Kaiser  
Dipl.-Ing. Peter Gabko

### **Asian Institute of Technology Thailand**

Prof. Sid Irandust  
Dr. Oleg Shipin

### **Kabul Polytechnic University Afghanistan**

Prof. Dr. Ezatullah Hamid  
Prof. Shah Mohammad Besmel
